MULTIPLE QUICKFRAMES SUPPORTING RTU BETWEEN SEVERAL BAYS:

- For a conservative capacity, use "Light Machinery" column of load table multiplied by number of complete frames.

MULTIPLE QUICKFRAMES WITHIN SAME BAY SUPPORTING RTU:

- Complete frames must be installed. Sharing rails is not permitted.
- For a conservative capacity, use "Light Machinery" column of load table multiplied by number of complete frames.

NOTE:

If the conservative load capacity calculation from this detail is not sufficient for a specific location, contact Quickframe for a job specific design.
